WHO I AM

I am a **Learning & Development Consultant & Entrepreneurship Consultant** with over **Twenty (20) Years'** Experience. I am also an **IT Consultant** who has trained & certified over **Twenty-Three Thousand (23,000)** Individuals In different **ICT & Entrepreneurship Skills** through my firm **ISP Computers Nig Ltd**. I am also an author who has authored & published **Nine (9) Academic Books, Six (6) eBooks** & Several Learning Materials. I am also an Expert in Developing Curriculum Content that delivers Exceptional Learning Outcomes.

ACADEMIC\PROFESSIONAL ATTAINMENT

March 2026: Certified Artificial Intelligence Professional Training

Tools: Python, Landbot, ChatGPT, Gemini, Suno, ElevenLabs, Prompt Engineering

Projects

Project 1: Student/Survey Feedback Chatbot

- Built an interactive feedback chatbot using the Landbot platform.
- Designed chatbot workflows to:
 - Ask survey and feedback questions
 - Collect and organize user responses
 - Provide automated feedback and responses
- Improved user interaction through conversational AI design.

Project 2: Simple AI Chatbot Development with Python

- Developed a basic AI-powered chatbot using Python.
- Implemented conversational logic and automated response handling.

Project 3: Language Translator Application with Python

- Built a language translation application using Python.
- Enabled automated text translation between multiple languages.

- Applied API integration and text-processing techniques for language conversion.

Project 4: Social Media Posting & Automation

- Automated social media posting workflows using AI and automation tools.
- Created systems for scheduling and managing content distribution.
- Improved efficiency in digital content management and online engagement.

September 2025: Data Analytics Professional Training

Tools: Excel, Power BI, SQL, Python, Tableau

Projects

Project 1: Banking Data Analysis – African Banks Dataset

- Cleaned and prepared banking datasets for analysis.
- Generated descriptive statistics to identify financial trends and patterns.
- Used Pivot Tables to analyze:
 - Top 10 banks with the highest Real Interest Rate (RIR)
 - Bank rankings according to size
 - Bank performance based on debt metrics
- Created visualizations and reports to present analytical findings.

Project 2: Billionaire Dataset Analysis

- Cleaned and organized billionaire datasets for accurate analysis.
- Used Pivot Tables to identify:
 - Countries with the highest number of billionaires
 - Top 20 richest billionaires globally
 - Sectors with the highest number of billionaires
 - Average age of billionaires
- Developed charts and dashboards to visualize key insights.

Project 3: Data Cleaning & Pre-processing – Stock Prices Dataset

- Loaded and processed stock price datasets using Python and Pandas.
- Identified and handled missing values for improved data quality.
- Removed duplicate entries and standardized inconsistent data formats.

Project 4: Exploratory Data Analysis (EDA) – Stock Prices Dataset

- Performed trend and pattern analysis on stock market data.
- Calculated statistical measures including mean, median, mode, and standard deviation.
- Visualized data distributions using histograms, box plots, and scatter plots.
- Conducted correlation analysis between numerical variables.

Project 5: Dashboard Development with Power BI

- Imported, cleaned, and transformed datasets in Power BI.
- Designed interactive dashboards using bar charts, line graphs, and maps.
- Implemented filters and slicers for enhanced data exploration.
- Published and shared dashboards for reporting and business insights.

Project 6: Exploratory Data Analysis – Store Sales Dataset (Excel)

- Identified and handled missing or null values in sales datasets.
- Removed duplicate records to improve data accuracy.
- Corrected inconsistent data formats including dates, numbers, and text fields.

January 2024:

Hired Training Consultant – Multibase Consultancy Services
Training of **Senior & Junior Staff Workers of Lafarge Cement** on “The Empowered Trade Union – Creating Relevant & Industrial Union”

December 2021 :

Regional Lead Trainer (North West) – TEXT Foundation

(Training Teachers on Pedagogy to Support Radio School Program Designed for Out Of School Children (OOSC).

- Aug 2020:** **IBM Certification – Data Analysis With Python**
Big Data University:
<https://courses.cognitiveclass.ai/certificates/b79217ee85ba49e7b4172d54ee395867>
- 2020:** **IBM Certification - Python 101 for Data Science**
Big Data University:
<https://courses.cognitiveclass.ai/certificates/a575518303474fb08ac859ae50c0a8b3>
- 2020:** **IBM Certification – Data Foundations Level 2**
Big Data University:
<https://www.youracclaim.com/earner/earned/badge/40f00278-e807-40ee-abbe-c4e6270e2e78>
- 2020:** **IBM Certification – Spark Fundamentals**
Big Data University:
<https://courses.cognitiveclass.ai/certificates/5d14aa9d45354695b1f9bfd3cc9608fe>
- 2020:** **Power BI Certification**
ISP Computer Institute
- 2019:** **IBM Certification – Introduction To Data Science**
IBM Cognitive Class:
<https://courses.cognitiveclass.ai/certificates/02342cbdc738436182b67dedc6dddaec>
- 2019:** **IBM Certification - Big Data Foundations**
IBM Analytics Services:
<https://courses.cognitiveclass.ai/certificates/50dd0e8cec5f45deac5fad89964df718>
- 2019:** **Diploma in Python Programming**
ISP Computer Institute
- 2018:** **Fellow**
Institute of Strategic Entrepreneurs of Nigeria
- 2013:** **Certificate in E-Governance Infrastructure**
United Nations Public Administration Network
- 2013:** **Certificate in Decentralised Governance**
United Nations Public Administrations Network
- 2003:** **Postgraduate Diploma in Information & Computer Engineering**
ISP Computers Nig Ltd
- 1999 – 2003:** **Bachelor of Science Mathematics (Education)**
Bayero University Kano

- 1996:** **Diploma in Data processing & Information Technology**
Tropical Computer Institute
- 1992 – 1995** **National Certificate in Mathematics & Geography Education**
Federal College of Education Kano
- 1985 – 1991:** **O Levels Certificate** (the West African Examination Council.)
Command Secondary School Jos

EMPLOYMENT\WORK HISTORY

- **April 2021 - 2023: Data Capture Project** – National Identity Management Commission of Nigeria (NIMC). This project is design to capture the data of all Nigerians and generate a unique National Identification Number (NIN) for each person.
- **November 2020: Project Consultant for Master’s Degree in Computer Science Project** to Develop a **Student Class Prediction Placement Model** with **Machine Learning** Using **K-NN, Random Forest, Navies Bayes, Support Vector Model & Logistic Regression Models** in **Python&Excel**.
- **October 2020: Vendor for the Supply of IT Equipments to Society for Family Health (SFH) ICHSSA 3 PROJECT**
- **March 2002 till Date: MD\CEO ISP Computers Nig Ltd**

Roles & Responsibilities Include

- **E-Learning Content Developer on Youtube**
 - **Youtube Channel :** Entrepreneurship TV @ Vincent
- **Identify Courses for Study.**
 - Continually identify present and future skills set and courses based on job market demands and current trends. .
 - Develop a blue print that contains the entire topics to be covered in each skill set or course.
- **Develop Study Materials for Each Course.**
 - Research study topics and develop study materials.

- Design lecture frame work for each course in terms of number of contact hours, type of delivery(theory/practical) and mode of assessment i.e.(written or practical).
- **Staff Recruitment, Training & Management**
 - Ensure Staff With the Right Skills Set are Recruited
 - Provide Continuous Staff Training to ensure that they deliver the right Skills to Students
 - Ensure Staff Assessment Students Properly
- **Sales & Marketing**
 - Design Strategy for Sales & Marketing of Company's Products
 - Identify Key Market Segments to Make Sales Pitches
 - Design scripts for Radio, TV & Handbills Adverts & Monitor Effects by the Numbers of Customers that Turn Up Each Month based on these different media.
- **General Management.**
 - Ensure All Institute Operations Run Smoothly
 - Leasing Effectively With Partners & External Bodies to Ensure Optimal Performance & Delivery of Results.
- **Organisational Attainment.**
 - As a company ISP Computers has been able to train over twenty three thousand (23,000) individuals since inception in March 2002, in various ICT Skills.

2001 - 2002: Head of Engineering Department, Hands-On Institute of Information Technology

- Ensuring Proper Maintenance of Computer Systems & Networks.
- Training of Computer Engineering Students.

1998 – 2001: Dean Of Studies Kards Computers Nigeria Ltd

- Coordinate Training Activities
- Manage Student Data & Academic Records

1996 – 1998: Computer Instructor – Tropical Computer Institute

- Train Students on various ICT Courses

SKILLS PROFILE

Writing Skills:

Very proficient in Academic, Vocational & Entrepreneurship Writing. I have written over 30 academic titles, 6 Ebooks& developed study materials for over 20 vocational and entrepreneurship courses. I am also very proficient at creating online content for websites.

Information Technology Skills:

Proficiency in the following computer programmes: Microsoft office tools (exceptional proficiency in the use of Office Applications, AutoCAD, Solidworks, Adobe Premiere & Capcut).

Programming Skills:

Python, HTML, CSS, Java Script

Engineering & Networking Skills:

Proficiency in Computer Repairs & Networking.
